

# Kanen Stephens

## Self-taught Software Developer

github.com/kanennn  
contact@kanennn.dev  
+1-256-701-7420  
Huntsville, AL

## Objective

Seeking an internship/part time role utilizing my computer software and/or hardware skills while studying at university

## Education

**University of Alabama in Huntsville**  
Student in Computer Engineering 2025-2029

**Calhoun Community College**  
Dual Enrollment 2023-2025  
GPA 4.3

**Life Christian Academy**  
High School 2021-2025  
GPA 4.1  
ACT 35

## Skills

Python	Git
Java	Bash
Golang	HTML
Linux	CSS

## Work Experience

### Bookstore Steward

Sell Your Smarts 2024

Managed book production and distribution, including editing, formatting, publishing, and promotion. Designed online bookstore website using Shopify designer, Liquid, HTML & CSS.

### Barista

Starbucks 2025-Present

Operated efficiently with team members to provide a quality customer experience during high demand periods. Assisted managers with store upkeep, adhering to precise standards for maintenance, health/food safety, and store startup/shutdown process.

## Informal Experience

### MacBook/iPhone Repair

Commissions 2020-2025

Repair for devices that were unresponsive or unbootable, kernel panicked/bootlooped, or in need of replacement parts.

## Projects

### Quests

Golang 2024

A raw-text based fantasy-themed TUI project manager written in Go, where projects are divided into “quests” with associated metadata, logging, and “sub-quests”.

### Sapphire Launcher

Python 2022

An ARM64 native Java launcher for Minecraft built in Python that parses JSON manifests, installs assets/libraries, obtains auth token from Mojang servers, and launches JVM.
